

Federal Communications Commission

Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2011 - December 31, 2011

Filing Confirmation Number: 0005024829

Filing Deadline: January 17, 2012

FRN: 0014045504

Filing Date: 01/10/2012 05:09 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer more than two handsets over any air interface to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period? Yes

Did you offer any handsets to service providers (if you are a device manufacturer) or to subscribers (if you are a service provider) during this reporting period?

Company Information

Company Name: Van Buren Wireless, Inc.
Brand Names: iWireless
PO Box: 430
Street Address: 617 First St.
City: Keosauqua
State: IA
Zip Code: 52565

Contact Name: Kevin Hranicka
Contact Phone: (319) 293-3187
Contact Fax:
Contact Email: hranicka@netins.net

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Blooston Mordkofsky Dickens Duffy & Prendergast, LLP
PO Box:
Street Address: 2120 L Street, NW Suite 300
City: Washington
State: DC
Zip Code: 20037

Contact Name: D. Cary Mitchell
Contact Phone: (202) 828-5538
Contact Fax:
Contact Email: cary@bloostonlaw.com

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not currently have hearing aid compatibility technical standards have clear and effective disclosure that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? No

Website address:

Explain: The Company is a small rural service provider that provides service in conjunction with the iWireless network. The Company does not operate a separate web site, but its parent company, Van Buren Telephone Co., maintains a web site with basic information about its service offerings at <http://www.vbtelco.com>. Because the Company lacks the personnel and resources necessary to maintain an extensive site (and because such resources are better used for extending service to rural and underserved areas), information about the Company's iWireless service and a complete list of handset offerings (including a click-box feature that allows customers to easily sort and identify hearing aid compatible devices) is provided at <http://www.iwireless.com/phones.asp>. An explanation of the HAC rating system, along with links to industry resources, a list of compliant devices and their compatibility ratings, a description of the company's methodology for determining handset functionality and information on other wireless accessibility options for the deaf and hard of hearing are readily available to the public at http://www.iwireless.com/customer_support-hearing_aid.asp. A direct link to this information is provided on a web page that describes the Company's wireless services and relationship to iWireless at http://www.vbtelco.com/?page_id=11

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: The Company has instructed its sales staff about the availability of hearing-aid compatible phone models and it has wireless industry pamphlets available in its company store to provide information on the FCC's requirements and HAC rating system. Additional information about hearing aid compatibility is available on the iWireless web site at http://www.iwireless.com/customer_support-hearing_aid.asp.

Methodology for Functionality Levels

Levels of handset functionality and methodology for determining functionality are as follows:

- Basic phones (entry-level devices offered for \$10 or less)
- Feature phones (devices with more advanced features and capabilities offered for more than \$10) and
- Smartphone/PDAs (devices that run complete operating system software as a platform for application developers)

Report Remarks

Carrier may offer certain handsets that are capable of operating on more than one air interface. Carrier currently operates only on the air interface(s) specified below. The Commission has made it clear that the HAC handset phase-in requirements specified in Section 20.19(c)(3) apply only "for each air interface it offers." Report and Order, 18 FCC Rcd 16753 (2003) at ¶ 53. Moreover, these handset phase-in requirements are triggered only after a service provider has begun offering service using a particular air interface. Memorandum Opinion and Order, 22 FCC Rcd 7171 (2007) at ¶ 60.

You have reported the following handset model summary information.

Total number of handsets offered: 84

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	27	32%	19	23%	38	45%	84
